### **HB 1 Forming Open and Robust University Minds (FORUM) Act; enact**

Bill Summary: House Bill 1 creates the 'Forming Open and Robust University Minds (FORUM) Act.' The bill provides that the unrestricted outdoor areas of the campuses of the University System of Georgia and the Technical College System of Georgia's institutions are public forums for their campus communities. The institutions shall not prohibit expressive activities in those areas or designate any campus areas as a "free speech zone". Institutions may maintain and enforce restrictions for expression so long as the restrictions are narrowly tailored to serve a significant institutional interest and employ criteria that is clear, published, neutral, and provides ample alternative means for expression. Restrictions must also allow the community to assemble spontaneously and to distribute literature.

Individuals may engage in expressive activities that do not materially and substantially disrupt the functions of the institution. Disruptions do not include conduct protected by the First Amendment of the United States Constitution. The bill does not prevent an institution from prohibiting student-on-student harassment or unlawful activities.

Policies, regulations, and expectations of student expression on campus will be made public by the institution. The institutions will also develop materials, programs, and procedures regarding student expression for all individuals responsible for the education or discipline of students.

The State Board of the Technical College System of Georgia shall publish an annual report related to its actions on free expression. The report will be shared with the governor and General Assembly on

July 1 of each year.
